

Our Vision

Our orchestra community:

- is a full symphony orchestra,
- is inclusive of players of varying abilities,
- places priority on the inclusion of our members,
- is made up of committed players who attend all (or most) rehearsals,
- develops players and ensemble ability within the core membership base, and
- provides opportunities for guest conductors.

Our performance repertoire :

- is challenging but manageable for our orchestra community,
- supports Australian composers,
- provides opportunity to young, local musicians for solo opportunities,
- takes account of other Sydney orchestras' programmes, and
- considers audience and player preferences for repertoire

Our orchestra management :

- aims to create a sustainable committee environment that distributes work, supports the team and is constantly focused on new contributions and members,
- is focused on local performances in Strathfield and developing our core audience base, and
- is financially sustainable in regards to player costs, music cost, promotional costs and venue costs.
